

Model answers

2. What activities do Comedy Kids clubs offer young people to learn and perform comedy?
Write coherent sentences, use your own words without copying bluntly from the text.

Sample answer:

According to the text, Comedy Kids Clubs give young people the opportunity to present on stage a short act. As no one is born a master, they also established the first Comedy Classes where young people are taught how to perform comedy professionally.

3. Imagine applying for the Comedy Kids to join one of their classes. Write an email of request where you talk about yourself and why you are interested in participating.

Dear Sir or Madam,

my name is Manfred Muster and I would like to apply for one of your Comedy Classes, preferably for a class taking place in summer. I have enjoyed doing comedy for many years as I performed short comedy acts on stage in front of friends, at family celebrations and in school. My friends tell me that they love my humor which is said to be witty and sharp. What I love so much about comedy is that I genuinely feel like giving something precious to the people when I make them laugh and they escape for a moment from their grey daily life. Of course, it is a challenge to make other people laugh and you have to deal with your own emotions on stage, but I am willing to face it, step by step. I would be very delighted to improve my performance in comedy by joining one of your classes.

Yours sincerely,

Manfred Muster
